SENTIA THE GLOBAL SCHOOL

Class III

PT3 PRACTICE WORKSHEET - SCIENCE

Lesso	n–8			Works	heet-1			
I.	Fill in	the b	lanks.					
	1.	Birds	have kind	ds of feather	s.			
	2.		have talons.					
			can rest on branche	es of trees ar	re called _	birds.		
	4.	Some	birds like cranes ar	nd herons are	e called _	birds.		
			birds make a h					
			 has a beak v					
	7.	Humn	ning birds have	beak.				
			_					
II.	Matc	h the c	columns.					
	Α				В			
		feathe	rs		Hen			
	Talons					l feet		
	Scrato	ching fe	et		Young c	ones of birds		
	Beak			_		e body warm		
	Goose				Eagle			
	Nestiii	ng			Help the	e bird to eat		
III.	Tick t	the cor	rrect option.					
			eon has be	ak				
	1.		nort and hard		c. Flat and	d broad		
			nort and hooked					
	2		n of these feathers h			na pointea		
			Down feathers	•	-	c. Body feathers	d. Flight feath	ers
	3.		that have climbing		.5	ci body reddicio	ar ringile reach	.
	٥.		Woodpecker			c. Eagle	d. Hen	
	4		n birds make their n			_	al Hen	
					-	c. Tailor bird	d. Crow	
IV.	Answ	er the	se short answer o	uestions.				
	1. W	hat are	wading birds?					
	2. W	hy do b	oirds have different l	kinds of beal	ks?			
	3. Bi	rds hav	e which kind of bod	y?				
	4. Ho	ow do b	oirds fly?					
	5. Ho	ow does	s a beak help the bir	rds?				
	6. W	hich kir	nd of feathers give s	hape and co	lour to bi	rd's body?		
V.			se long answer q					
			the different kinds of			rds.		
			any three special ne					
		-		•		lls that birds use to build	d nests.	
	4. Lis	st the d	ifferent kinds of bea	aks of birds a	and their s	special features.		
Lesso	n–9			Worksl	heet-2			
I.W	rite Tr	ue or F	alse.					
			also called biting tee	eth [1			
			permanent teeth tha			1		
			e 4 in numbers[1				

		s have sharp and strong canines [] d visit dentist regularly to check for cavities []
II.Fil	ll in the bla	anks.
		eeth are called
2.	A person v	we should visit for the check up of our teeth
	•	called are formed in teeth if we do not keep them clean.
		incisors in our teeth.
5.	A yellow s	ticky substance on teeth is called
III.Ar	swer thes	se short answer questions.
	What is pl	·
	-	y teeth are present in permanent set?
		teeth are called temporary teeth?
	What are	
5.	What are	premoiars?
IV.Ar	nswer thes	se long answer questions.
		ate between permanent set of teeth and temporary set of teeth.
		the features of different types of teeth that we have.
_		ne difference between teeth of herbivores and carnivores?
4.	How can v	we take care of our teeth?
Lesso	on–10	Worksheet-3
Lesso I.	_	Worksheet-3 one-word answer.
	Give o	
	Give 0 1. 2.	Something used to measure heaviness of an object A fixed quantity that is used as a standard for measuring things
	Give (1. 2. 3.	Something used to measure heaviness of an object A fixed quantity that is used as a standard for measuring things Something used to measure how tall we are
	Give (1. 2. 3.	Something used to measure heaviness of an object A fixed quantity that is used as a standard for measuring things
	Give (1. 2. 3. 4.	Something used to measure heaviness of an object A fixed quantity that is used as a standard for measuring things Something used to measure how tall we are
I.	Give (1. 2. 3. 4. Fill in 1.	Something used to measure heaviness of an object A fixed quantity that is used as a standard for measuring things Something used to measure how tall we are A unit of measuring time the blanks is measured using instrument such as weighing balance.
I.	Give (1. 2. 3. 4. Fill in 1. 2.	Something used to measure heaviness of an object A fixed quantity that is used as a standard for measuring things Something used to measure how tall we are A unit of measuring time the blanks is measured using instrument such as weighing balance. In earlier times people used for measuring things.
I.	Give (1. 2. 3. 4. Fill in 2. 3.	Something used to measure heaviness of an object A fixed quantity that is used as a standard for measuring things Something used to measure how tall we are A unit of measuring time the blanks is measured using instrument such as weighing balance. In earlier times people used for measuring things. We need to find our the length of the cloth.
I.	Give (1. 2. 3. 4. Fill in 1. 2. 3. 4.	Something used to measure heaviness of an object A fixed quantity that is used as a standard for measuring things Something used to measure how tall we are A unit of measuring time the blanks is measured using instrument such as weighing balance. In earlier times people used for measuring things. We need to find our the length of the cloth. One kilogram is equal to grams.
I.	Give (1. 2. 3. 4. Fill in 2. 3. 4. 5.	Something used to measure heaviness of an object A fixed quantity that is used as a standard for measuring things Something used to measure how tall we are A unit of measuring time the blanks is measured using instrument such as weighing balance. In earlier times people used for measuring things. We need to find our the length of the cloth. One kilogram is equal to grams is the measurement of the interval between two events.
I.	Give (1. 2. 3. 4. Fill in 2. 3. 4. 5.	Something used to measure heaviness of an object A fixed quantity that is used as a standard for measuring things Something used to measure how tall we are A unit of measuring time the blanks is measured using instrument such as weighing balance. In earlier times people used for measuring things. We need to find our the length of the cloth. One kilogram is equal to grams.
I.	Give (1. 2. 3. 4. Fill in 2. 3. 4. 5. 6.	Something used to measure heaviness of an object A fixed quantity that is used as a standard for measuring things Something used to measure how tall we are A unit of measuring time the blanks is measured using instrument such as weighing balance. In earlier times people used for measuring things. We need to find our the length of the cloth. One kilogram is equal to grams is the measurement of the interval between two events.
1.	Give (1. 2. 3. 4. Fill in 1. 2. 3. 4. 5. 6. 1. Answ 1.	Something used to measure heaviness of an object A fixed quantity that is used as a standard for measuring things Something used to measure how tall we are A unit of measuring time the blanks. is measured using instrument such as weighing balance. In earlier times people used for measuring things. We need to find our the length of the cloth. One kilogram is equal to grams. is the measurement of the interval between two events. The most common unit for measuring heavier objects is er these short answer questions. What is unit?
1.	Give (1. 2. 3. 4. Fill in 1. 2. 3. 4. 5. 6. 1. Answ 1.	Something used to measure heaviness of an object
1.	Give (1. 2. 3. 4. Fill in 2. 3. 4. 5. 6. I. Answ 1. 2. 3.	Something used to measure heaviness of an object
1.	Give (1. 2. 3. 4. Fill in 2. 3. 4. 5. 6. I. Answ 1. 2. 3.	Something used to measure heaviness of an object
1.	Give (1. 2. 3. 4. Fill in 2. 3. 4. 5. 6. I. Answ 1. 2. 3.	Something used to measure heaviness of an object
1.	Give (1) 2. 3. 4. Fill in 1. 2. 3. 4. 5. 6. I. Answ 1. 2. 3. 4.	Something used to measure heaviness of an object

IV. Answer these long answer questions.

- 1. Why is it important to have a unit for measurement?
- 2. What is length? What is difference between length and height? Name different units for measuring length and height.
